Telco Customer Churn Dataset

Task:

Identify:

- Why customers are leaving
- Which customers are likely to churn

Guidelines:

1. **Understand Business Problem**
    - What is churn?
    - Why is it important?
2. **Data Analysis**
    - Churn vs Non-churn comparison
    - Contract type vs churn
    - Monthly charges vs churn
3. **Segmentation**
    - High-risk customers
    - Loyal customers
4. **KPIs**
    - Churn Rate
    - Average Revenue per User (ARPU)
5. **Optional (Bonus)**
    - Basic prediction using Excel or Python

Report Submission:

- Business Problem Explanation
- Key Drivers of Churn
- Customer Segments

- Visualizations
- Retention Strategy Recommendations

FINAL SUBMISSION GUIDELINES

Every learner must submit:

Report Structure:

1. Title Page
2. Problem Statement
3. Dataset Description
4. Approach / Methodology
5. Analysis / Model
6. Key Insights (min 5)
7. Visualizations
8. Conclusion
9. Recommendations

Deliverables:

- Dataset (cleaned version)
- Dashboard / Code file
- PDF Report

Deadline for Task 1 – 22ND April 2026
